

# BRAND-NEW CLEAR STYLE

Maintaining your car's quality like new forever

Automotive paint protection film

JN-SHIELD is a highly water-repellent, antifouling protection film that protects your valued car from dirt, scratches, and corrosion.

## Automotive paint protection film

Your valued car may get scratched or stained in a variety of situations in daily life.  
JN-SHIELD is a paint protection film which protects your valued car on such occasions and maintains its beauty as if it were brand-new.

### *Six causes that depreciate the value of a car*

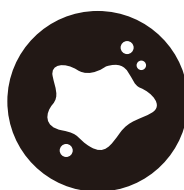

Flying pebbles

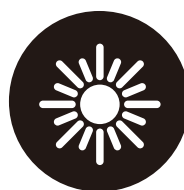

Damage from bird droppings or insects

Scrapes from luggage

Mud splashes

Color loss

Scratches

### *Six functions of JN-SHIELD for car protection*

#### **FUNCTION-01**

##### **Protection from dirt**

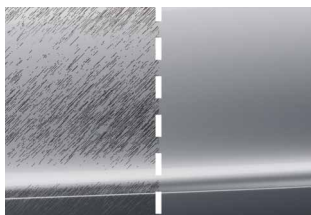

JN-SHIELD is so effective that even graffiti written using an oil-based marker pen can be wiped off. It protects a car from rain, mud, and oil stains, as well as bird droppings.

#### **FUNCTION-02**

##### **Protection from scratches**

Even if the car is scratched with something hard like a brass brush, the damage can be quickly removed.

#### **FUNCTION-03**

##### **Protection from impact**

Even if a pebble hits the car, the scratch will not reach the paint surface.

#### **FUNCTION-04**

##### **Maintaining the beauty of the car**

The glossy finish and appearance of your beautiful, shiny car will not be marred.

#### **FUNCTION-05**

##### **Resistant to outdoor environments**

As a rule, the JN-SHIELD film does not deteriorate even if it is used outdoors for a long period of time.

#### **FUNCTION-06**

##### **JN-SHIELD can easily be applied or removed**

The JN-SHIELD film can easily be applied to even complex curved surfaces. Even after it is used for a long period of time, only a small amount of adhesive is left behind, making it easy to apply a new film.
